Subject: Final Draft Tribal Environmental Agreement [LDF-100715]
LacduFlambeau draft 10.15 09.19.docx

Hi Dee

Attached is a final draft Tribal Environmental Agreement that incorporates input from the Region 5 media Divisions. Please review and let me know if you have any additions or changes.

Please note that EPA has inserted language in response to the tribal priorities, and that the areas highlighted in red font have been slightly modified from the original.

Once we have agreed that the document is complete, Casey Ambutas, Acting Director of the Indian Environmental Office will email EPA's concurrence to you.

Please contact me with any questions.
